### **Compliance with REACH list of restricted substances**

*The European Union (EU) has adopted regulatory framework for the Registration, Evaluation and Authorization of Chemicals, The Regulation 1907/2006/EC (as REACH). REACH establishes obligations for manufacturers, importers and downstream users of chemical substances imported to or produced in EU.*

*The REACH Restrictions List, or Annex XVII, helps protect human health and the environment from risks posed by chemicals by restricting certain substances from being manufactured, used or placed on the EU market.*

*We hereby certify that below mentioned products are compliant with the latest REACH list of substances restricted under Annex XVII. The listed substances are not present in the below listed products.*

### **Products concerned:**

*GET series*

*VET series*

A handwritten signature in black ink, appearing to read 'Kimmo Ilén', positioned above a horizontal line.

Kimmo Ilén, Material and Product Engineer
